EXPERIENCE

Full Stack Developer

Aug 2024 – Present

Neox Info Tech — Mecheda

- Developed cross-platform mobile apps using React Native and responsive web applications with React.js, HTML5, CSS3, and JavaScript.
- Collaborated with design and backend teams to build scalable, user-friendly mobile and web solutions.
- Wrote clean, reusable code using React Native, React, Next.js, and Git, following best development practices.
- Integrated REST APIs and managed application state, gaining hands-on experience in component-based application development.

PROJECTS (NEOX INFO TECH)

Mothers Multispeciality Hospital – Hospital Management Web Application

React.js, Node.js, Express.js, Prisma ORM, SQL, Hostinger

- Built a hospital management system with doctor scheduling, patient registration, and appointment booking.
- Implemented role-based access and an integrated billing system for accurate patient record-keeping.

Ganapati Hardware POS – Inventory Management & Billing Software

React.js, Node.js, Express.js, Prisma ORM, SQL, Hostinger

- Built a POS and inventory system with real-time stock tracking and low-inventory alerts.
- Implemented fast billing, invoice generation, and sales reporting for daily business operations.

Jems Flower By Art – E-commerce Platform for Flowers, Bouquets & Events

React.js, Node.js, Express.js, Prisma ORM, SQL, Hostinger

- Built a full e-commerce platform for flowers, bouquets, and event products with an admin portal.
- Implemented cart, checkout, order tracking, and category-based browsing with search and filters.

WBMPAF – West Bengal Motion Picture Artists' Forum

React, React Native

- Developed a cross-platform app for a 1000+ member artist community with gated membership and secure payments.
- Built real-time messaging/notifications, profile tools, and role-based authentication with admin moderation.

Delivered 12+ additional websites and web applications across various industries and client requirements (not listed individually).
